MONTBRETIAS Are quite valuable as cut flowers and their colors, especially in the orange shades, give them a decorative usefulness not available in any other seasonal flowers. Bulbs should be planted and handled the same as Gladiolas. Each bulb produces several flower spikes. **Mixed Colors: 3 for 20c.; 60c. per dozen; \$3.75 per 100.**

TIGRIDIA PAVONIA For brilliancy of color there are few floral subjects that can compare with Tigridias. The bulb, which can be handled the same as Gladiolas, bloom in mid-summer. Each stalk produces several flowers and this prolongs the display. **Mixed Colors: 3 for 30c.; \$1.00 per dozen; \$7.00 per 100.**
